

What If Someone Has Referred My Child to SAP?

A State Street SAP team member will contact you regarding your child's referral to the program. Before a SAP team member talks to your child, you will be asked to sign a permission form. As a parent, your knowledge and thoughts about your child will be helpful in developing a plan of action. If you need more information before making a decision about SAP, please feel free to talk to a team member.

What is SAP?

A SAP team made up of school and agency staff is available to help you access school and community services for your child.

In Pennsylvania, every school district is required to have a plan for identifying and assisting students who experience barriers to learning.

The State Street Elementary School SAP team will help you find services and assistance within the school, and if needed, in the community. We do not diagnose, treat or refer your child for treatment. We will provide you with information and available options that best fit your needs and wishes. As the parent/guardian you are an important part of the team.

How does my son/daughter or a child I know become involved in the SAP program?

Anyone can refer a student to the SAP team. Some students are referred by teachers or other school personnel. A friend or family member can also let the SAP team know that they are worried about someone. The child can even go directly to the team or their Guidance Counselor to ask for help. However, SAP will not proceed unless you give your written parent permission. Once permission is received, a team member may gather information to determine how a student is doing in their classes and/or interview the student. The State Street SAP team will work with you to develop a plan of action to help your child achieve success in school. Participation in the program is voluntary.
